## Certificate for Leave Form – Update Feb 2025

The [Certificate of Leave](#) form is one of the most heavily utilised within the MedAdvisor for Pharmacy software. Various updates have been rolled out to streamline this workflow for pharmacies. These enhancements aim to eliminate the need for printing and manual signatures for patients who prefer to receive their certificates digitally.

### New functionality:

- Ability to **easily email patients their Certificate of Leave** directly at the conclusion of a service.
- Easy setup of a **digital signature** which automatically uploads to the digital Certificate of Leave.
- **Demographic field editing now available** for manual entry of up-to-date data for patients not in dispense.

### Pharmacy Resources:

#### Training:

- [How to create a Certificate of Leave](#)
- [How to setup a digital signature](#)
- Pharmacy Shop: [Promote professional services](#)
- Webinar: [Record Services](#)
